MONITOR, ALBERTA, FRIDAY, JULY 22 1921.

NO. 28

Local Happenings

This coming week, Choir practice in St. Laurence Church will be held on Saturday at 8pm instead of Friday. A hearty invitation is issued to all singers (and those desirous of singing) by the choirmaster Mr. H. A. Warner to be present at practice.

Theory for next week. "Punctuation."

There are no good people in hell—this will be a great comfort to those who have been, and are still annoyed by "reformers."

Typewriter supplies—Call at the News office. Carbon. Manila. Paper. Ribbons. Repairs

You will need refreshing after the ball game on Wednesday the 27th. You will want to celebrate the victory anyway. Do it with sandwiches, coffee, ice cream and cake. Everything strictly home made, the kind you've been longing for. Big Hall July 27th 5 to 8 p.m.

Messrs H. Crisp and Jas. Glancey left on Monday last for Calgary, per auto.

Mrs. T. H. Ferguson and baby son returned home on Tuesday night.

Telephone construction men are busy erecting poles etc. south of town.

Mr. F. Burrell got badly bruised last Friday, when a team used him as a doormat. Fortunately no bones were broken.

Ball Gossip

The Monitor base-ball team came down on Sunday and gave Loyalist the worst trimming of the season; the score being 13-7 at the end of the 9th inning. It was a case of them winning by fair means or foul, and the latter was resorted to more than once. If Monitor has a fair umpire the next time they play against Loyalist, we are quite confident that the score will be a little more even. Loyalist Correspondent. Consort Enterprise

It is really amusing to hear Loyalist rave about the umpires as per the above. As a matter of fact the only dumb decisions given were in favor of their own team, and therefore a pretty poor argument. Tis true, if we had another umpire the score would be different, but instead of being 13-7 it would more likely be 33-7. Grouches and poor sports never could and never will be able to play baseball, either in Monitors class or any other class, and we would suggest that the correspondent for Loyalist be more sure of the facts before he sends copy in for publication. Either that, or let the Editor of the Consort Enterprise use the "blue pencil" a little more judiciously.

Farmers Cop 37 Seats

Returns on the election received here Tuesday a.m. show the following standing of the parties:

Farmers	37
Liberals	16
Independent	4
Labor	4
Conservative	1

Coronation constituency gave the Farmer a big majority, Consort and Coronation polled a Liberal majority while Monitor broke even --- 58-58. Every other poll showed a Farmer majority

Now For The Election Promises!

St. Laurence Church

MONITOR

Rev. W. S. Wickenden B. A.

The Rev. W. S. Wickenden will conduct Divine Service D.V. Sunday next July 24th.

as follows:

Broadview Schoolhouse 11 a.m.
Butte Church 3 p.m.
Monitor 7.30 p.m.

Books provided. A hearty congregational Service. All welcome.

Sunday School at
Broadview 10.15 a.m.
Monitor 11 a.m.

Choir Practice, Monitor, Friday 8 p.m.

Some men outlive their usefulness—others are born with it.

FEATURE

We have been fortunate in securing the services of Mr. H. Weed for one year, to write articles on Dry Land Agriculture and other "problems" of this district. Mr. Weed, besides being a dry farming expert before the war, taught it in the Khaki College of the army and has been making a special study of this particular district for the past

It is our endeavor to increase the circulation of the News, to reach every farmer who will benefit by this series of articles, and would urge all those who are not at present subscribing to do so at once in order that no article of Mr. Weed may be missed.

FOR SALE—Good team of young horses about 1500 lbs. each in fine condition. Apply to: Soldier Settlement Board, Monitor Alta.

28th. up.

Co-Operative Church

Rev. E. Davidge B. A.

Services will be held on the Monitor Mission on Sunday July 24 D.V. as follows:

Sunday School 12 o'clock noon
Horseshoe School Service 3 pm
Cooperative Church, Monitor 7.30 p.m.

Everyone cordially invited to attend.

Harvesting Starts

H. McCarron, north of town, bumped into his 35 acres of Fall Rye on Tuesday last—with a binder. The stand is one of the best we have seen in this district for some time.

Local Happenings

For the safest Insurance, See Warner at the News Office.

Mr. C. F. Laubman, of Provost, was a business visitor last week end.

A considerable wind storm, followed by a good rain passed over the district last Saturday. This is certainly weather made to order.

Dr. and Mrs. Mason attended the Stampede at Battle Creek this week, returning Thursday evening.

Remember the Big Gap Stampede—July 25 and 26 Neutral Hills.

Miss W. Connors, a sister of Mrs. Eblinger is visiting for a short while.

Taking things as they come does not wear one out so fast as dodging them.

58 to 58—Who's on the fence now? Out of a voters list of 145, 117 recorded their votes in the recent election; or 737 plus One vote disputed.

Mr. and Mrs. H.A. were visitors in Altario on Tuesday last.

D.S. Waters, of the local branch C.B. of C. returned from his holidays on Monday last. He says he has had a whale of a time and has travelled extensively in the west with Lizzie (Or Ford, if you prefer)

Well, according to an advertisement which recently appeared in the News, "Alberta has swapped horses" in the middle of a stream. It now remains to see whether or not the homely truism of Abraham Lincoln is to be justified or not.

A man who knows when he is beat, is oft the best fighter.

Warner

Considerable improvement is being made in town by the grading of Alberta Avenue. There are still some spots on Main Street that would benefit traffic, both pedestrian and vehicular, if a little more gravel were placed.

An impromptu dance was held last Saturday evening in the Big Hall. A gramophone furnished the music, and about 20 couples broke the monotony of the week with a very pleasant time. We understand the Imperial Oil boys are responsible for the party.

A large number from town attended the Sports Day at Kirriemuir last Friday. The Monitor Citizens Band disengaged sweet music during the afternoon and the Orchestra played for the dance in the evening. Kirriemuir endeavored to play Monitor at baseball, but lost out to the tune of 16-5. Andy Helgerson, star 3rd baseman of the Monitor team, made his initial bow to the public in the box, and pitched remarkably good ball. The game was a joke, but everyone enjoyed it, including the umpire who startled the fans with some weird decisions.

Present Economic Waste

Why do prices of merchandise and commodities of all kinds remain so abnormally high despite the fact that the war demand is long since past and production in almost every line has overtaken requirements? This is a question asked by hundreds of people. It is generally known that prices of raw materials have fallen, yet when one comes to buy the finished product into which these raw materials have been converted, the price asked is practically the same as during the war. What is the reason? The answer may be largely expressed in one word: Waste.

It is universally recognized that the prevailing high freight rates operate directly to increase the price of all goods, first by increasing the price of the raw materials and secondly by still higher charges on the finished article. One of the chief factors responsible for high freight rates is: Waste. Here are a few illustrations of this waste of which complaint is made:

Before the United States Government took over the railways of that country for operation during the war the comparatively simple job of changing a nozzle tip in the front end of a locomotive could be done by a machinist, or a machinist and helper, or even a handy man alone. Today under the present classification rules governing the labor unions, in order to change a nozzle tip it is necessary to call a boilermaker and his helper to open the door, because that is boilermakers' work; to call a pipefitter and his helper to remove the blower pipe, because that is pipefitter's work; and to call a machinist and his helper to remove the tip, because this is machinists' work; also for the same force to be employed for putting in the new tip.

Prior to Federal control of the railways in the United States it was not an uncommon practice for a machinist and his helper to take care of all of the work necessary on an electric headlight of a locomotive. Under the McAdoo Agreement the work is now so classified as to distribute the same among three crafts, namely, machinists, sheet metal workers and electricians. If each of the mechanics performing the work has a helper, this has the effect of six men performing a piece of work that could be and was formerly taken care of by two men.

Under present rules where arrivals of trains require the service of employees two hours in the morning and two hours in the evening, say 8 a.m. to 10 a.m. and 6 p.m. to 8 p.m. railroads now have to employ two shifts of eight hours each, or sixteen hours service where there is only four hours actual work. Furthermore, where two such shifts are worked the starting time must be between 7 and 8 a.m. and if the arrival of a train or other operating conditions require a man on duty at 6 a.m. he must be paid for five hours each day in addition to regular eight-hour day.

The following illustrates the method of paying a wrecking crew under the McAdoo Agreement when performing road service: A wrecking crew composed of six men leaves its home terminal at 8 a.m., goes a distance of 50 miles to clear up a wreck; work of clearing main track is completed at 6 p.m.; crew ties up for sleep and rest from 6 p.m. to 7 a.m. next morning (wrecking outfit is equipped with sleeping facilities); resume duty 7 a.m.; pick up refuse and arrive at home terminal 2 p.m. Under the National Agreement it is necessary to pay the entire crew continuously for the first 24 hours from the time they leave their home terminal, computed as follows:

From 8 a.m. to 4 p.m., eight hours straight time; 4 p.m. to 12 midnight, eight hours of time and one-half, or 12 hours; 12 midnight to 8 a.m., eight hours at double time, or 16 hours; 8 a.m. to 2 p.m., six hours at straight time. Total of 42 hours paid, although crew actually performed service from 12 noon to 6 p.m. first day, six hours, and from 7 a.m. to 10 a.m. second day, three hours. It will be noted actual time worked during the entire period was nine hours; balance of the time was consumed in waiting and travelling, and it will be further noted the crew was released entirely from 6 p.m. to 7 a.m., during which time they were paid at time and one-half and double time while actually off duty and sleeping.

Scores of other instances of a like character, all of which are substantiated by an exhaustive inquiry into the subject, could be given. The above however goes to show the enormous economic waste taking place daily in connection with railway work, which waste must be paid for, and is being paid for, by the people in excessive freight and passenger rates. These high rates are reflected again in the gaudy high cost of goods of all kinds.

The truth of the matter is that in paying the excessively high rates which the railway companies find it necessary to charge, the people are paying, not for services rendered, but to cover vicious economic waste, paying for work they do not do and for services which are not performed. The whole system is wrong and is doing even greater injury to those who fancy they are profiting by it because it is encouraging shiflessness and downright dishonesty which finds expression in accepting pay for work never performed.

The British Way

Upholds Officials Who Speak For Nation Without Authorization

Speaking of the reprimand administered to Rear-Admiral Sims by United States Secretary Denby for his denunciation of American Sinn Feiners and of utterances made by Admiral McGruder regarding the United States' attitude towards France, the New York Times points out by way of contrast, that the British Government does not check up its officials when they presume to speak for the nation without direct authorization. The Tribune recalls that in Cuba a British consul who threw the British flag over Americans facing a firing squad was not reprimanded. Nor was Captain Chichester reprimanded in Manila Bay when he intervened between Admiral Dewey and the German squadron, virtually challenging Germany to war if an attack was made upon the American ships.

If the whole of the watery vapor in the atmosphere were to fall at once in the form of rain it would not, according to experts, cover the entire surface of the earth to a depth of more than five inches.

ADVICE FOR BACKACHE

When stooping hurts, when lifting and bending causes distress that's the time to rub in lots of "Nervilene." Usually a couple of applications brings relief. No liniment more soothing, more certain to kill muscular, rheumatic and neuralgic pains. Thousands of homes rely on good Old Nervilene for cramps, colic, dysentery, and external muscular pains. Large 35 cent bottles for sale everywhere.

Something more than a century ago paper was so dear in England that butchers used to give their customers the meat wrapped up in a large vegetable leaf.

To Asthma Sufferers. Dr. J. D. Kellogg's Asthinct Remedy comes like a helping hand to a sinking swimmer. It gives new life and hope by relieving his trouble—something he has come to believe impossible. Its benefit is too evident to be questioned—it is its own best argument—its own best advertisement. If you suffer from asthma get this time-tried remedy and find help like thousands of others.

Wonderful powers of memorizing facts are possessed by a Yorkshire laborer, who has mentally stored away 31,000 items of general information.

As a verminicide an excellent preparation is Mother Graves' Worm Exterminator. It has saved the lives of countless children.

The vibrations of sound caused by spoken words can now be recorded by means of a clever invention.

CHOLERA INFANTUM

Cholera infantum is one of the fatal ailments of childhood. It is a trouble that comes on suddenly, especially during the summer months, and it is a trouble that can be overcome. Little one may soon be beyond aid. Baby's Own Tablets are an ideal medicine in warding off this trouble. They regulate the bowels and sweeten the stomach and thus prevent all the dread summer complaints. Concerning them Mrs. Fred Rose, of South Bay, Ont., says: "I feel Baby's Own Tablets are the best medicine for my baby when she had cholera infantum and I would not be without them." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Canadian Receives French Medal

Corporal Rescued Woman From Well Nineteen Feet Deep.

Corporal David Mills, London, a former member of the British Air Force, has been awarded a medal by the "Foundation Carnegie" of Paris, France. In 1918 when the English airmen were at Froisols bombing the Rhine cities, Mills one night saw a number of excited people standing at a farm gate. He learned that a woman had fallen 19 feet into a well filled with water 50 feet deep. Single handed he brought the woman to the surface though he had been told it meant death to go into the shaft and that she was doubtless dead before he had arrived.

Lucky He Took Wife's Advice At Time He Did, Says This Regina Man

"I was going down hill pretty fast when I began taking Tanlac, but I can say for this medicine that it turned me right round and put me back on the road to health," said William Lorenz, 2154 McKay St., Regina.

I suffered a great deal more from the after-effects of influenza than I did from the disease itself, as it left me in a run-down condition. My stomach was upset and I had a sick and depressed feeling most of the time. Nothing I ate agreed with me. My kidneys bothered me considerably and my back ached so that I could not bend over and straighten up again without suffering agony.

It was a lucky day for me when my wife persuaded me to take Tanlac. I changed me all around in a

surprisingly short time. It gave me an appetite and put my stomach in perfect condition so that nothing I eat disagrees with me. My kidneys do not bother me any more and my back is entirely free from pain. I gained fifteen pounds in weight, too, while taking Tanlac and just feel like a different person.

"Seeing what Tanlac did for me, dozens of our friends are taking it and they are just as enthusiastic as my wife and I are. We intend always to keep a bottle in the house so that if any of the family need building up we can give it to them at once. "I feel that it is nothing but my duty to tell others about this medicine which does so much good."

Tanlac is sold by leading druggists everywhere.

Hillavale School Picnic

The Hillavale S.D. held their picnic at Ridley's Lake about four miles north of the school, on Saturday, July 16th.

Rain, accompanied by a heavy wind, came down about 2 p.m. and continued for over an hour but, through the kindness of Mr. and Mrs. Robert Ridley who had made preparations for just such contingency, the picnickers were able to make themselves comfortable until the sky cleared.

After the rain was over the picnickers enjoyed the nice cool weather which followed and the children enjoyed themselves immensely with football, baseball, swinging, boating and last, but not least,—the sports.

The baseball match between the men and the schoolboys was won by the boys in spite of the best efforts of the men to win.

Mr. Cockton, who tried baseball for the first time surprised most of those present by the speed with which he went the round of the basis.

The races were very good and there were many close finishes. In the ladies flat race, the two winners ran their dead heats and had to toss a coin to decide who took first prize, Mrs. Pryor being the lucky one.

The Ladies egg and spoon race was run in two heats and in the final Mrs. Mitchell and Miss Peters ran a very close race the latter managing to grasp the tape first.

At the close of the sports the prizes together with sweets nuts and oranges were distributed by E. Pryor chairman and J. Smiley a trustee of the school district and the children went home happy after having spent a very pleasant afternoon.

The prizes donated by the Monitor tradesmen were very much appreciated and the best thanks of the Hillavale people are due to them and also to Mr. and Mrs. Robert Ridley for providing amusement for the children and for their generous hospitality and assistance in helping to make the picnic a success.

WEEDS

Summerfallow that does not show any weeds starting, will not produce a good crop of wheat, pack it down. A loose, dry summerfallow is not conserving moisture, as indicated by lack of weed seed germination. Borrow or hire a packer; but no land should be plowed and not packed at the same operation; make a small packer to draw at side of plow, out of old disks, it saves time, and the necessary implement and operation for this District.

As soon as the weed seed is germinated, cultivate or Harrow when small, so that the weeds will not absorb the moisture.

In cutting your grain, dump the rows of bundles straight, and set stocks in straight Rows then cultivate or Disk between Rows as soon as possible to start weeds, kill cut worms and grasshopper eggs. Do this wet, rainy weather when you cannot cut or thresh, if not done before. As soon as threshed, rake the stock rows and stack the raking for pig and chicken feed, then cultivate or disk these strips.

If you have Summerfallow that may blow, put in strips of Fall Rye, on the light spots, it may save a good crop of wheat on the balance. —

Put in enough Fall Rye, in stubble, so that you will have plenty of time to cultivate the balance of your land well enough next year that there will not be weeds to cut. If you can make the land clean, and show good crops and good cultivation, that would look attractive to buyers, I would advise a colonization Boom and sell the unoccupied land, and land of dissatisfied ones, to settlers who would come here, not expecting to raise wheat, but who understand Silos, sunflowers, rye, sweet clover, alfalfa, say beans, Daifing, Pige, sheep, Turkeys, geese, chickens; who have been accustomed to save, attend to small details and make their living out of little things, that seem insignificant to a wheat farmer.

You have the Oil Boom to help advertise; and with plenty of good looking Fall Rye; Forgetting, and never mentioning the dry years; and the cooperation of everyone to "Boost" will pull the district out of a bad situation. DO IT NOW, before the opportunity is lost.

H. W. Weed
Weed Commissioner

The Homesteaders

— BY —
ROBERT J. C. STEAD

Published By Special Arrangement With the Author.

(Continued.)

"It's out of the question," said McCrae. "Besides, it's not so necessary as you think. What with the bad time our train made, an' the good time the stock-train made, an' the fact that they started ahead of us, they're in the yard now. It's a piece of hub and spoke with 'em. Car-trunks are for settlers to be held up here two an' three weeks waiting for their freight, an' all the time bills piling up an' cash running down in a way that knocks holes in their pockets." "But you can't put my wife in a store car, can you?"

"This is worse places," McCrae answered, calmly worrying a considerable section from a "plug" of black chewing tobacco. "Worse places, Ah should say. Ah've seen times when a good warm stock car would have passed for heaven. But that and the rest of all the time we'll be all in an' get the stock unloaded, hitch up the horses, pack a load, an' get away. Morrison's hired man'll drive his team, an' Tom'll stay here himself an' look after the rest of the stuff. Ah've been making a canvas, an' Ah think we'll be having a few families who can be ready to pull out this afternoon. An' soon as we get into settled country, perhaps we can get accommodation, such as it is, along the way. But my team will go along with good tent an' some cooking outfit. Everyone has bedding, an' all right for that. It will all bustle when we start by four o'clock, an' ten or twelve miles before we pitch camp. That's far enough for the horses the first day, anyway. How does it suit you?"

"What do you say, Mr. Morrison?" "I think Fletcher's team is best. They're good horses, a girl and there's no roof for their heads now. I can find a place for myself, I've got to them started. Ned is a trusty man; he will drive my team. It suits me."

"But after we get there?" said Harris. "For my part, I don't know where I'm going to stay. Even if Fletcher's help it will take some time to look up a land and build a place to live in. Mind you," he said, as it foretelling a question in their minds, "I'm mighty obliged for the kindness of your offer, and it isn't myself I'm thinking about."

"Hoots, man!" said Morrison. "We ken who you're thinkin' about; right well. And a poor man'd he be if ye didn't, for a bonnie lass never came out of Canada, and that's saying somethin'." But she'll be all right out there, and a deal better than you left her here. There are many settlers with houses in the country. Aleck tells me, but there's a few, and it's wonderful the elasticity of a shanty on the prairie."

"Tom's right," said McCrae. "We haven't any of the conveniences of civilization or anything yet, but we haven't the narrowness or pretensions either an' your wife'll be both welcome an' safe in any farmer's home. Now, if it's all settled," continued McCrae, who had the leader's knack of suppressing indecision at the psychological moment, "we'll turn in with the undoubted prospect of a good night's sleep."

Harris ran to tell his wife that they were to join a party for the front that very afternoon. She received the news joyously. Her only fear

'CHECK YOUR BOWEL TROUBLES BY USING DR. FOWLER'S EXTRACT OF WILD STRAWBERRY.'

When you are troubled with diarrhoea, dysentery, colic, cramps and pains in the stomach, liver, kidneys, bowels, &c., & any looseness of the bowels be sure and obtain a bottle of "Dr. Fowler's" and see how quickly it gives you relief. This wonderful remedy has been on the market for the past 70 years and we wish to warn you against accepting a substitute which may be dangerous to your health.

Mr. Samuel Buckler, Tatamagouche, N.S., writes:—"While visiting in Western Canada I had a severe attack of diarrhoea. After trying many preparations I could not get no relief but kept getting worse."

I was advised to take Dr. Fowler's Extract of Wild Strawberry, and I lost no time in doing so. I cannot hesitate in recommending it most highly, for when I had not yet taken half the bottle I was relieved. I must say that if "Dr. Fowler's" is given in a fair trial it will show its good qualities."

The price of the genuine is 50¢ a bottle; put up only by The T. Milburn Co., Limited, Toronto, Ont.

W. N. U. 1377

Liniments Won't Relieve Pain Between The Eyes

That pain is not rheumatism or neuralgia. Many folks think so—it is due to Catarrh, plain ordinary Catarrh and needs attention right now. Catarrh zone is the name of a wonderful invention that is daily fixing up chronic cases of weak throat, bronchitis and catarrh. Every breath through the inhaler is laden with soothing healing vapors that will dry all diseased conditions in the breathing organs. It can't fail to help, because it goes where the trouble really exists—and doesn't attempt to cure an illness in the head or throat by means of medicine taken in the stomach. There is no suffering from a stuffy cold or a head cold that won't find benefit in Catarrh zone, which is employed by physicians, ministers, lawyers and public men throughout many foreign lands. Large size lasts two months and costs \$1.00. Small sizes 50c, sample size 25c. all stockkeepers or the Catarrh zone Co., Montreal.

had been that she would be left behind during the weeks in which her husband made his exploration of the country.

In a few minutes all hands, both men and women, were busy at the cars. The horses, stiff and sore after their long journey, stalked reluctantly down the gangway. Feeling solid ground beneath their feet, they shook their heads vigorously, as though to rid themselves of the jolts and jolts and presently were rolling and stretching in the warm sun. Dogs jumped with muddy paws and boisterous affection upon masters and mistresses; cows lowed, roosters crowed, and pigs emitted little grunts of that same happy content to their faces. Many hands made the dark light, and by mid-afternoon six sleighs were loaded for the journey. All the women and children were to go with the party; Morrison and one or two hired men would remain in Emerson, complete the unloading, and take charge of the horses and return from their long journey.

"Most remarkable man," whispered McCrae to Harris. "Wonderful how he can plan his trip together." McCrae hurried to his own sleigh, called a cheery "All ready?" and the party at once proceeded to get under way. This was not accomplished without difficulty. The cattle showed no disposition to follow the sleighs, but hung back, pulling on their ropes with amazing strength. One by one, in a series of halts, sat down in the snow and had to be dragged bodily. The settlers had three or four dogs along, but it was not considered safe to let them get at the cattle, lest the frightened animals should break their ropes and occasion further delay. The situation was relieved by a number of men following behind, holding vigorously and twisting the tails of the most recalcitrant. Presently the cows began to swing along, and, finding that no harm befell them, they soon settled into a slow but steady gait, and gave no more trouble until they began to tire with their travel.

The horses, too, had their own difficulties, and, as far as possible, their long trip in the cars, and strange to the air and surroundings, they fatigued and fretted, and soon the sweat was creeping up their backs. The sleighs trudged high over the level of the surrounding prairie, and the horses were continually slipping off. The snow packed hard but lay under two feet of drifts, and the drivers were obliged to get out and clear it away. The March sun, which had shone down with such fierce heat during the middle of the day, now swung to the westward, facing the travellers over an ocean of snow stretching away into the distance. The day grew colder, women and children drew blankets tighter about them and huddled lower in the sleighs to escape a sharp wind that slipped silently down from the north, carrying a ground-drift of icy particles in its breath.

"You will all be fine," he said, "and a good deal better than wearin' about here. Besides, you're just as well to be away," he added, in a somewhat lower voice. "McCrae tells me if this sun keeps up the roads will be gone in a week or two and that means a delay of two or three weeks. There's been a tremendous snow this winter, and a steady thaw, what with these north-runnin' rivers, means floods on the low-lyin' lands, and perhaps in the town itself. McCrae tells me he's none too sure about the prairie."

At this moment McCrae himself joined the group. "There's only two in your party, Harris," he said, "an' while Ah don't want to interrupt your honeymoon, there's another passenger to be taken care of. Dr. Blain is going with us, and Ah'm going to put him in your charge. He's a good doctor, but Ah don't think he'll give you any trouble. It's just a case of being too much of a good fellow. One thing Ah know—he's a doctor. Saw him last fall on a scarlet fever job. Settler's sod shack, twenty miles from here. The old woman and her mother down, father frantic. Well, Ah know that Blain camped right there in the thick of it; doctor, nursed, cooked, kep' house—did everything. An' they're all of 'em alive an' well to-day, or were when last Ah saw them. So he's worth much a doctor, an' a good one at that. You may know that before some day. Ah'm going up town for him now; you can shift your stuff a little an' make room."

The whole party were ready for the road and waiting before McCrae appeared again. When he came a company of drivers, somewhat uncertainly by his side.

"'Tm aw'right," McCrae, he was

Children Cry for Fletcher's

CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria from the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

What is CASTORIA?

Castoria is a harmless substitute for Cactor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulence, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Comfort; The Mother's Friend.

Air Bicycle Is

Latest Invention

Flies Thirty-Five Feet, Three Feet From Ground.

The air bicycle has arrived.

Gabriel Poulain recently won the 10,000 franc prize offered for the first flight to be made in an aeroplane propelled by manpower.

For the first time in history an aeroplane has been flown with no motive force other than that supplied by a pair of legs.

Poulain made three flights—or rather loops. The longest was about 35 feet. He managed to get about three feet off the ground in making this hop. Scientists who watched him compared his performance with the first attempt at aviation when motor-propelled planes trundled around on the ground with occasional leaps into the air.

Poulain's vehicle looks like a bicycle with planes and a propeller. To win the money he had to make a flight of more than ten yards. While the crowd looked on, he pedaled furiously along the field and finally flew clear of the ground.

Poverty would soon die out if babies were permitted to select their parents.

A man is seldom as old as he feels or a woman as young as she says she is.

A Valuable Discovery

New Method of Treating Hydro-Magnesite Will Benefit B.C.

A new method of calcining hydro-magnesite has been discovered by C. D. Oliver, of Vancouver. The first deposit of this product, of which British Columbia has a monopoly, is at Watson Lake, near Vancouver. Other parts of Central and Northern British Columbia are rich with the same and similar deposits—soda, epsom salts, etc. The new method of calcining has been proved to be an undoubted success and this will obviate the necessity of importing improved magnesite from California and elsewhere.

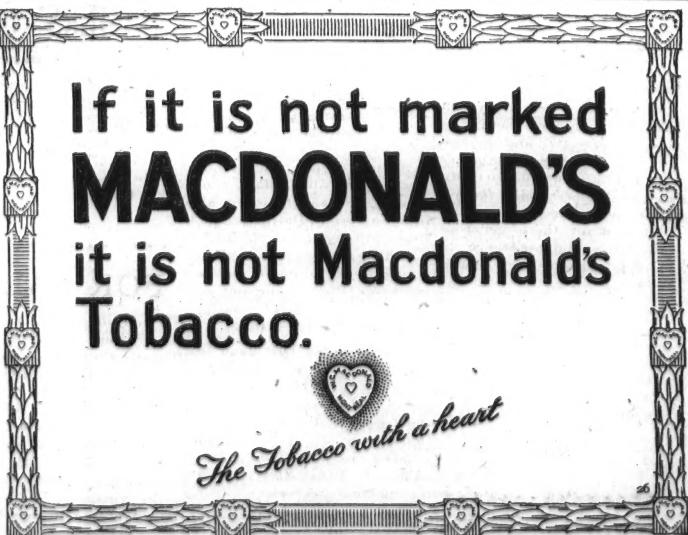

The Chinese pen is a brush made of "soft hair," which is best adapted for painting the curiously-formed letters of the Chinese alphabet.

MINARD'S LINIMENT

Importance Of The Conference On Limitation of Armaments

Meeting at Washington Will be Attended by Many of the World's Prominent Statesmen.

London—Indications in semi-official circles are that an international conference giving every promise of developing into one of the most important in the history of the world is in store for the immediate future.

Great Britain, France and Italy have thus far officially signified their willingness to accept, invitations of President Harding to a conference on limitations of armaments, while China has indicated her readiness to participate in a conference relative to Eastern affairs.

In Government circles it appears to be the consensus of opinion that the meeting at Washington will be attended by some of the most prominent

statesmen of the world. The announcement of Premier Briand of France, that he would consider going to Washington, followed indications that Prime Minister Lloyd George might also go, provided conditions in Great Britain are such as to permit his extended absence from the country. It is probable, however, that some of the leading figures in British official life will be present. Among those mentioned as delegates are Rt. Hon. A. J. Balfour, Lord President of the Council of the League of Nations; Lord Lee, of Farnham, First Lord of the Admiralty; Sir Laming Worthington-Evans, Secretary for War; Admiral Lord Beatty and Viscount Grey.

Hail Swept Areas

Heavy Damage Reported In South Alberta and Saskatchewan.

Lethbridge.—Later reports of the hailstorm which struck Southern Alberta last week indicate that it was much wider in extent than first reports showed. The storm gathered in the foothills west of Clarendon and swept in a south-easterly direction through the Clarendon, Nobleford, Coaldale and Chin districts, swinging south through Skiff, on the Lethbridge-Weyburn branch of the C.P.R.

The storm varied in width from one to three miles and the loss of the crop in its path was nearly complete. The length of the storm path was approximately a hundred miles.

All crops but two on the C.P.R. and the Van Horne soldier colony, north of Coaldale in the irrigated belt, were wiped out. Chickens were killed by the force of the storm in some districts.

Damage from hail in an extensive area is found to have resulted from the recent storm in Southern Saskatchewan. The area hailed is said to extend intermittently from Shaunavon to Weyburn. The district seven miles south from Assiniboia and south of Limerick is said to be most seriously affected. Sixty thousand dollars in insurance claims is reported in Limerick.

Several areas are said not to have been insured. The extent of the damage is as much as seventy to eighty per cent. in places.

Japan's Chief Concern

Wonders If She Can Hold Her Own If Isolated.

San Francisco.—"The Anglo-Japanese alliance has been revised twice since its conclusion in 1902, but the fundamental spirit underlying the pact has never changed," says a statement issued in Tokyo by the Kokumin-to political party and published in the Yomiuri, copies of which were received here recently.

The question that claims the serious consideration of the Japanese at this moment is not whether Japan will be isolated when the alliance is dropped, but whether Japan has any confidence in her capacity to hold her own in the future, even if she should find herself temporarily in an isolated condition."

The New Agriculture

Outlines Vision of New Future for Agriculture in the West.

Saskatoon.—The agricultural societies convention at the University of Saskatchewan was completed this afternoon when Prof. W. J. Rutherford, dean of the College of Agriculture, addressed the gathering on "The New Agriculture," and Prof. A. M. Shaw gave an address on "Livestock—its place in Saskatchewan agriculture."

The Dean outlined the vision of the new agriculture which was gradually coming into existence in the west. The new agriculture would be profitable, productive, comfortable, beautiful and educational. The boys would not want to leave the farms then, he declared.

Long Distance Wireless Record

Vancouver.—The Merchants Exchange wireless here has picked up a message from the Canadian-Australian liner, *Makura*, which, it is stated, created a long distance record for the Pacific. The exchange wireless heard the liner giving her position, the vessel being about one day out of Auckland, New Zealand, en route to this port. The distance is more than 6,000 miles.

Trial Of German War Criminals

Thought-Hospital Ships Were Dangerous to Submarines.

Leipzig, Germany.—At the continuation of the trial in the Supreme Court here of the two German submarine lieutenants, Ludwig Dittmar and Johann Boldt, charged with murder in the first degree for firing on lifeboats after the Canadian hospital ship, *Llandovery Castle*, had been torpedoed in the summer of 1918, Petty Officer Popitz, of the submarine which sank the ship, said the Germans always suspected hospital ships, which they considered a danger to submarines.

Popitz declared he and Lieut. Dittmar tried to persuade Commander Pathiz of the submarine, not to attack the hospital ship, but when the submarine dived, fired two torpedoes and then came to the surface.

The witness testified he saw three or four lifeboats out and several men swimming; then the crew of the submarine was ordered below deck. The general feeling prevailed that some unfortunate had occurred, Popitz declared. Later he heard firing and assumed the lifeboats were being fired on.

A naval expert, representing the German War Office, admitted there was no proof of any abuse of a hospital ship's status on the part of the *Llandovery Castle*.

The *Llandovery Castle* was bound from Halifax to an English port when she was torpedoed on the night of June 27, 1918, off Fastnet. One of 258 persons on board, only 24 were saved.

Great Britain Leads In Shipbuilding

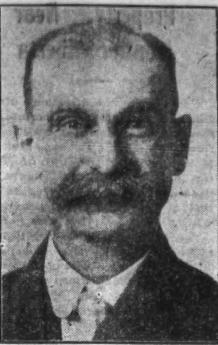

Doing Nearly 60 Per Cent. of World's Ship Construction.

New York.—The United Kingdom has 2,813,000 tons more shipping under construction than the United States. Nearly sixty per cent. of the world's shipbuilding is being done by British yards.

According to Lloyd's Register of shipping, during the quarter ended June 30, world ship construction showed a decrease of approximately 900,000 tons from that of the first quarter, and the latter figures were less than 100,000 tons below those of the preceding three months.

During the three months ended June 30, United States shipping under construction dropped nearly 400,000 tons, British about 270,000 tons, and the other countries combined, with the exception of Germany, for which complete returns are not available, about 250,000 tons.

B. C. Lumber Mill

Destroyed By Fire

Costly Blaze at Gilroy-McKay Plant, Port Alberni.

Port Alberni, B.C.—Fire completely destroyed the Gilroy-McKay lumber mill with a loss in plant alone estimated at \$75,000. A million and a half feet of lumber was lost.

The Canadian Voyager was berthed at the mill loading 550,000 feet of lumber for Quebec points. Both cargo and vessel were saved.

Some cars of lumber caught fire and sustained heavy damage. One house caught fire but was saved. The cause of the fire is unknown. Owing to a brisk wind it spread rapidly. Fire fighters from both Port Alberni and Alberni were quickly on the scene but could do little to check the spread of the flames and most of the time was occupied in protecting nearby residences.

Anti-British Film

Will Be Produced

To Be Exhibited By Author Who Served Prison Term.

New York.—Robert Goldstein, who in 1917 was sentenced to ten years imprisonment for violation of the Espionage Act in connection with the authorship and production of a 13-reel film known as "The Spirit of '76," a work of propaganda to arouse animosity in the United States against the British Government, has had his sentence commuted and been released after serving three years. He announced that he intends to exhibit the film and has hired a hall in this city.

Britain Canvels

Building Subsidies

Plan to Encourage House Building Produced 200,000 Dwellings.

London.—The British Government has stopped the granting of subsidies to encourage house building, a policy entered into since the war in an endeavor to overcome the housing shortage. It is estimated that the government scheme has produced 200,000 dwellings and entailed liabilities of ten million pounds annually. To this heavy indebtedness on account of current rent, a large capital loss will have to be added, when, at the expiration of the seven years, the properties will be freed for transfer to the local authorities.

Was In Strange Company

London.—Premier Meighen found himself in somewhat strange company at the Eighty Club. Right Hon. H. H. Asquith sat at his left and proposed his health, while all around him were the leading lights of anti-Lloyd George Liberalism. Mr. Asquith, in his address, ventured far into British controversial politics, introducing the Irish question, the disarmament conference and the conference of Empire Prime Ministers, but Premier Meighen, who followed and who received an almost tumultuous welcome, avoided going beyond the border of non-partisan problems.

Early Days In The Hudson's Bay Service

By O-GE-MAS-ES (Little Clerk).

(Copyrighted)

It was early summer of 1878 and rather to my disgust I was held up at Cumberland House (the headquarters for the H. B. Co. in that district), waiting for a passage to Grand Rapids. Every available able-bodied man had been engaged by the company, either for the arduous trip to Long Portage, with outfit for the Mackenzie River district, or else on the river steamers.

A missionary's wife, with three little girls had just come in from the north en route for the Red River; a poor Scotchman with a bee in his bonnet had been sent from an outfit post with a long report showing that the isolation had been too much for him, and though not dangerous he was considered a sort of mild lunatic.

It was decided to send him in to Fort Garry for medical examination. All of these people made extra months to feed, and the Chief Factor suggested that I take them down to Grand Rapids, by York Boats and there connect with the steamer Colville on Lake Winnipeg. I was quite agreeable to this, finding some sort of crew could be found, and after a good deal of enquiry, old Antoine Moran turned up, he having come in by the Brochet boats. This French half-breed had been poisoned some years before by the Indians and the effect still showed every summer in the peeling of the skin off his face and hands, the latter being so tender he could only do light work and that with gloves. However, I was glad to get him as he was an excellent steersman and knew the river. Then there was a young imp of an Indian lad named Kitche-mo-kon—(Big Knife) a devil for mischief, and the bourgeois was only too glad to get rid of him. This was all my crew, but of course we had the current of the river in our favor, for we could not possibly steer it. This was truly a motley crowd and I shuddered to think what would become of us all if we happened to take of the wrong channel, as we simply had no power to return. It took eight good men to pull a York boat up-current on the Saskatchewan. As usual the issue of provisions for our trip was scanty enough, therefore I smuggled in an old fish net in case of being storm bound, as there was thirty miles of Cedar Lake to cross, and straight fish diet was a long way better than nothing.

Having been on the Lower Saskatchewan for some years I was well equipped against mosquitoes, and such mosquitoes—quite beyond the imagination of any one who has not been there. The whole country for many miles is inundated in the spring, and as this recedes it is followed by a tremendous growth of rank grass, an ideal breeding ground for the plague. Once on a muddy, close evening, attempting to land with eight Indians from a York boat, the very weight and density of the mosquitoes drove us back into the boat; then, each taking a blanket and forcibly beating the swarms with them we managed to get the kettle boiled, but were only too glad to retreat to the middle of the river to eat in comparative peace. No

one thinks of travelling in the summer months without a mosquito bar for each traveller and these hung inside a good tent makes living possible.

The reader can imagine my horror to find that Mrs. Missionary had no mosquito bar, having come from a rocky part of the country. Well, I could not see a woman and three little ones eaten alive, so I and the boy set a tent and bade up in the storm sheets and our first-class passengers had a good night of it, while us poor beggars in spite of two large smudges made in iron pitch kettles slept but a little or not at all and were only too thankful to see daylight come.

Our only hope of making connection with the lake steamer was to drift with the current day and night, so as Captain of the craft I had placed Antoine on night duty, and I had taken the sweep in the daytime. After another night of torment we were getting close to *Chena-wa-win* at the west end of Cedar Lake. The Saskatchewan River here divided into several channels, these often changing with different seasons and as night was approaching we had either to tie up and wait for daylight or take extra precautions to keep the right channel.

There was fortunately a breeze which kept the flies away and we were nearly dead for want of sleep, so warning Antoine to keep a bright look-out we were sound asleep in two minutes. I was the first to waken, it being broad daylight and to my horror found we were out in a strange lake some distance from shore with no sign of either of the Saskatchewan River or Cedar Lake. Calling all hands and reprimanding Antoine sharply for neglect of duty, which, indeed, might have very serious consequences, he held a council, that is the old man, boy and myself, right up in the bow, so as not to alarm our lady passengers. One thing certain we could not go back, and it was no use waiting for help, as no one might find us all summer. There was only one course—to go on. Then, in spite of Antoine's remonstrances, we hoisted the sail, there being a light breeze in our favor, and sailed on into the unknown. One comfort was that we were out of the dreadful marshes. There was a stony mainland to our right, no land visible to the westward and no mosquitoes, also a most beautiful morning, so I went aft and teased the little girls who were quite happy with the change from the river. We landed in a pretty bay for dinner and the family enjoyed a good wash. By this time the wind was freshening so away we went again, making famous time, the ladies quite unaware that we were off our course. After an hour or so of brisk sailing a narrow opening to the eastward and old Antoine crowded with delight, exclaiming, "There is Cedar Lake." And sure enough it was. However our troubles were not yet over by any means as we would come out in the lake fairly close to the base of Rabbit Point, which nearly closes the east end of Cedar Lake, the route being along the east shore.

(To be continued)

Forest Fires Revive

Fire Fighters In Maritime Provinces Again Called Out.

St. John, N.B.—Strong westerly winds springing up, revived the forest fires at Westfield on the St. John River, and they were again sweeping toward the summer cottages at Hillside.

Grand Bay is again covered with smoke, and it is impossible to see more than fifty yards. Fire fighters, who thought the danger had passed, and had been relieved from their work, were again called out to give battle to the blaze in the district.

Ball Gossip

We were down to Altario Sports last Tuesday, and had a very good time. Of course, the main attraction of the day was the baseball. 3 teams were entered, Monitor, Eyehill and Macklin, and while we are not grousing at any of the games, yet we would suggest that "plugged" teams do not tend to improve the status of this sport. As an example take the so called Macklin team that played at Altario. There were only 1 Macklin regulars on it! Lisgaurd of Sounding Creek unconsciously gave the team the right appellation when he handed them the sobriquet of "The Gang".

Monitor nearly had a romance a week ago. Twa like this.

Record Parachute

Drop For Women

Eighteen-Year-Old Girl Says Experience Was Terrible.

Miss D'hoeb J., Fairgrave, 18 years old, of St. Paul, Minn., established what was said to be a new world's record for a parachute drop for women, when she dropped 15,200 feet from an airplane at Curtis Flying Field. The previous record was said to have been 11,000 feet, held by Miss Mabel Cody, set at Chicago last February. The altitude was recorded by an altimeter, according to Paul Goldsborough, of the Aero Club of Minneapolis who, with V. C. Omble, pilot, went up in the plane with Miss Fairgrave.

It took exactly 20 minutes from the time Miss Fairgrave leaped until she alighted safely in a wheat field near New Brighton.

"It was terrible," said Miss Fairgrave later. "I never want to try it again."

The Origin Of Gall Stones

They are simply dried bile made up of crystalline constituents of that fluid. Very common is this disease among merchants, clergymen, shopkeepers and those of sedentary habits.

Prevention consists in maintaining correct action of the liver and bowels, and this is speedily accomplished by using Dr. Hamilton's Pills. No person using Dr. Hamilton's Pills will be subject to bilious fits. Sound digestion, good appetite, a clear color will enhance the health giving power of Dr. Hamilton's Pills which are safest and best for general family use.

When a laxative is needed, when you feel out of sorts, that's the time to use Dr. Hamilton's Pills of Mandrake and Butternut, 25¢ all dealers or The Hamilton Co., Montreal.

A large number of Armenian children are suffering from heart disease due to the "fear" they have been living in.

The Prince of Wales has declined all public engagements during August and September in order to obtain a much-needed rest before his visit to India.

There has been practically no rain in the south of England for two months, and the highest temperatures for the past 40 years have been recorded for June and July.

The Allied Supreme Council probably will meet toward the end of this month, either in Boulogne or in Paris, it was announced by the French foreign office.

The Pacific Cable Board is reinstating the deferred press services between England, Canada and Australia, which was discontinued during the war.

Forty-one wells are now being sunk in Alberta in search of oil and these will be considerably increased as soon as the necessary equipment can be secured.

Forest fires in Quebec are now under control, according to G. C. Piche, chief forester. "The extent of the damage has been greatly exaggerated," Mr. Piche said.

A fire which broke out in the Blom and Voss Shipyards at Hamburg caused damage amounting to many millions of marks. The timber sheds with great quantities of building material were destroyed.

YOUNG WOMEN
AVOID PAIN

This One Tells How She Was Benefited by Taking Lydia E. Pinkham's Vegetable Compound.

Regina, Saskatchewan—"For two years I suffered from periodic pains and nausea so I was unable to get around. My mother had me take Lydia E. Pinkham's Vegetable Compound, and I am much better now. I am able to get around, which I could not do before. I recommend Vegetable Compound to my friends and know of thousands who have had you publish my letter if it will help one, as I hope it will."—Miss Z. G. BLACKWELL, 2073 Oaler Place, Regina, Saskatchewan.

If every girl who suffers as Miss Blackwell did from irregular, painful periods, headache, aches, dragging down pain, inflammation or ulceration would give Lydia E. Pinkham's Vegetable Compound a trial, she would soon find relief from such suffering.

It hardly seems possible that there is a woman in this country who will continue to suffer without giving Lydia E. Pinkham's Vegetable Compound a trial at least once. The evidence of its value is being published, proving beyond contradiction that this grand old medicine has relieved more suffering among women than any other medicine in the world. It is the best advice you can be given to seek the Lydia E. Pinkham's Medicine Co., Lynn, Mass. The result of forty years experience is at your service.

Special Summer Tourist Fares to the Pacific Coast.

A special summer tourist ticket to Vancouver, Victoria, Seattle and other Pacific Coast points are now on sale daily by the Canadian Pacific Railway. These tickets will bear a final return until October 31st, and include stopovers en route, which gives travellers an opportunity of visiting some of the beautiful resorts in the Rockies, such as Banff, Lake Louise and Glacier, where the Canadian maintain splendid resort hotels. These tickets are optional via the main line or Arrow Lakes route or one or both directions without extra charge. No expensive side trips necessary.

In addition to the "Trans-Canada Limited" exclusive sleeping car train, a choice of two other daily trains is offered, and as all are equipped with open-top observation cars through the mountains an excellent view of the magnificent scenery may be had.

Any agent of the Canadian Pacific will be pleased to give further particulars and make the necessary arrangements for the trip.

Spend your money at home, therefore, by helping your own town and local merchants.

Always Ready and Reliable.—Practically all pains arising from inflammation can be removed with Dr. Thomas' Electric Oil. Simply rub it on the sore spot and it is quickly absorbed by the skin. Its healing power is conveyed to the inflamed tissue which is quickly soothed. This old remedy is also a specific for all manner of cuts, scratches, bruises and sprains. Keep a bottle handy always.

The New Idea.

Uncle Timased—"I'm goin' to pull up at this watering trough an' give the old nag a drink."

Sammy Sittibed—"Does his radiator filling, uncle?"

Minard's Liniment for Dandruff

Eighteen-Year-Old Girl Says Experience Was Terrible.

Miss D'hoeb J., Fairgrave, 18 years old, of St. Paul, Minn., established what was said to be a new world's record for a parachute drop for women, when she dropped 15,200 feet from an airplane at Curtis Flying Field. The previous record was said to have been 11,000 feet, held by Miss Mabel Cody, set at Chicago last February. The altitude was recorded by an altimeter, according to Paul Goldsborough, of the Aero Club of Minneapolis who, with V. C. Omble, pilot, went up in the plane with Miss Fairgrave.

It took exactly 20 minutes from the time Miss Fairgrave leaped until she alighted safely in a wheat field near New Brighton.

"It was terrible," said Miss Fairgrave later. "I never want to try it again."

The Origin Of Gall Stones

They are simply dried bile made up of crystalline constituents of that fluid. Very common is this disease among merchants, clergymen, shopkeepers and those of sedentary habits.

Prevention consists in maintaining correct action of the liver and bowels, and this is speedily accomplished by using Dr. Hamilton's Pills. No person using Dr. Hamilton's Pills will be subject to bilious fits. Sound digestion, good appetite, a clear color will enhance the health giving power of Dr. Hamilton's Pills which are safest and best for general family use.

When a laxative is needed, when you feel out of sorts, that's the time to use Dr. Hamilton's Pills of Mandrake and Butternut, 25¢ all dealers or The Hamilton Co., Montreal.

A large number of Armenian children are suffering from heart disease due to the "fear" they have been living in.

The Prince of Wales has declined all public engagements during August and September in order to obtain a much-needed rest before his visit to India.

There has been practically no rain in the south of England for two months, and the highest temperatures for the past 40 years have been recorded for June and July.

The Allied Supreme Council probably will meet toward the end of this month, either in Boulogne or in Paris, it was announced by the French foreign office.

The Pacific Cable Board is reinstating the deferred press services between England, Canada and Australia, which was discontinued during the war.

Forty-one wells are now being sunk in Alberta in search of oil and these will be considerably increased as soon as the necessary equipment can be secured.

Forest fires in Quebec are now under control, according to G. C. Piche, chief forester. "The extent of the damage has been greatly exaggerated," Mr. Piche said.

A fire which broke out in the Blom and Voss Shipyards at Hamburg caused damage amounting to many millions of marks. The timber sheds with great quantities of building material were destroyed.

If every girl who suffers as Miss Blackwell did from irregular, painful periods, headache, aches, dragging down pain, inflammation or ulceration would give Lydia E. Pinkham's Vegetable Compound a trial, she would soon find relief from such suffering.

It hardly seems possible that there is a woman in this country who will continue to suffer without giving Lydia E. Pinkham's Vegetable Compound a trial at least once. The evidence of its value is being published, proving beyond contradiction that this grand old medicine has relieved more suffering among women than any other medicine in the world. It is the best advice you can be given to seek the Lydia E. Pinkham's Medicine Co., Lynn, Mass. The result of forty years experience is at your service.

Vanishes In a Night Down Old Colliery Shaft.

The lake in the park at Burleigh, the "Bursley" of Arnold Bennett's "Five Towns," vanished in a night.

The water disappeared through an old colliery air shaft, and nothing now remains but a sea of mud.

The property in the neighborhood of the park is now in a condition which is positively dangerous owing to recent mining subsidence.

Great cracks have appeared in the walls and roof of the town hall, and a staff of workmen are endeavoring to repair the damage.

TIME, PLEASE?

The costliest watch in the world is said to be a jeweled time piece worn by the Pope and valued at \$300,000

BET HE DIDN'T GET
THIS PUNCHED!

A slab of solid gold, engraved, was the railway ticket presented by the Canadian Pacific Railway to the Prince of Wales during his recent tour of Canada.

HEAR! HEAR!

If this is to be made a smokeless world, says an exchange, it will have to be accomplished without the aid and consent of the editors. A recent query on the subject was addressed to 13,000 publishers and newspaper men of the nation. Of the nearly 8,000 answers thus far received 7,300 were of the belief that an anti tobacco crusade was futile and inadvisable. More than 90 per cent were emphatic in their belief that the sentiment of their community discouraged any special war against tobacco. "If a man wants to smoke let him do it." This is the opinion of 96 per cent of the Editors of America, according to returns thus far received.

OH, GEORGE!

"Where are you going, my pretty maid?" She blushed to the tip of her nose;

"To Lucas and Ehlingers sir," she said, "To buy the garden hose."

STRAYED to E 30 31 4-4 one two year old heifer Red white no brands split in left ear.

L. O. Gould.

Pursuant to the judgment and final order for sale, there will be offered for sale by public auction, by J. Steinburg, at the Post Office in the Town of Coopers, in the Province of Alberta, at 12 o'clock noon on Saturday, Aug. 13th, 1921 subject to the reservations, conditions and provisions in the original grant from the Crown, and in the existing Certificate of Title, the following lands, namely:

The North-West Quarter of Section Thirty Four [34] Township Thirty-four [34] Range one (1) West of the Fourth Meridian in the Province of Alberta, containing 154 acres more or less reserving unto His Majesty all mines and minerals.

The Vendor is informed that the land is about 9 miles from Coopers and 9 miles from a school, and 9 miles from an elevator. There is a barn and granary thereon and also a good well. Thirty acres are fenced, and there are about sixty acres under cultivation.

The property is to be sold subject to a reserve bid. The terms of payment are ten per cent. (10%) cash on the date of the sale, and the balance to be paid into Court within sixty (60) days after without interest, or in the alternative the purchaser shall have the option of completing the said purchase by executing a mortgage which shall be a first mortgage on the land in an amount not to exceed \$600 and by paying the balance in cash into Court within sixty days from the date of the sale without interest. The said mortgage is to be for a term of five years on the usual form of the Vendor, repayable by instalments of \$50.00 each, payable yearly, and the balance at the end of the term; interest to be at the rate of 9% payable yearly; interest and repayments of principal to be made on the 2nd. day of January in each year.

Other terms and conditions are the standing conditions of the Supreme Court of Alberta, approved by the Master in Chambers.

Further particulars may be had from Messrs. Woods, Sherry, Collison and Field McLeod Building, Edmonton, Alberta, solicitors for the plaintiff, or from the Auctioneer.

Dated at Edmonton, this 5th day of July A.D. 1921.

Approved: "A. V. B." M.C.

"R. P. Wallace" C.S.C.A.
